THE NEW EUROPEAN BAUHAUS

- Creative and interdisciplinary initiative that connects the European Green Deal to our living spaces and experiences.
- Calls on all of us to imagine and build together a sustainable and inclusive future that is beautiful for our eyes, minds, and souls.

Beautiful places, practices, and experiences that are:

- **ENRICHING:** inspired by art and culture, responding to needs beyond functionality
- **SUSTAINABLE:** in harmony with nature, the environment, and our planet
- **INCLUSIVE:** encouraging a dialogue across cultures, disciplines, genders and ages

A stylized line drawing of a community scene. On the left, there are simple outlines of buildings. In the center, several stick figures are depicted, some standing and some sitting, with speech bubbles above them, suggesting communication and collaboration. To the right, there are several trees of different shapes. The entire scene is set against a background of three overlapping, light blue, wavy shapes that create a sense of depth and atmosphere.
